Volume 22

1977

Number 1

DISTRIBUTIONAL PATTERNS OF SOUTHEASTERN
MAYFLIES (EPHEMEROPTERA)

LEWIS BERNER

UNIVERSITY OF FLORIDA

GAINESVILLE

Numbers of the BULLETIN OF THE FLORIDA STATE MUSEUM, BIOLOGICAL SCIENCES, are published at irregular intervals. Volumes contain about 300 pages and are not necessarily completed in any one calendar year.

OLIVER L. AUSTIN, *Editor*

RHODA J. RYBAK, *Managing Editor*

Consultants for this issue:

RICHARD FRANZ

CLIFFORD JOHNSON

Communications concerning purchase or exchange of the publications and all manuscripts should be addressed to the Managing Editor of the Bulletin, Florida State Museum, Museum Road, University of Florida, Gainesville, Florida 32611.

This public document was promulgated at an annual cost of \$2,291.45 or \$2.291 per copy. It makes available to libraries, scholars, and all interested persons the results of researches in the natural sciences, emphasizing the Circum-Caribbean region.

DISTRIBUTIONAL PATTERNS OF SOUTHEASTERN MAYFLIES (EPHEMEROPTERA)¹

LEWIS BERNER²

SYNOPSIS: Distributional records of mayflies (Ephemeroptera) occurring in the southeastern states of Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee are given along with the stage of development of the insect and the month it was collected. Previously published state records are summarized and each species is assigned physiographic provinces to help the user of the data relate distribution to terrain.

² The author is a Professor in the Department of Zoology, University of Florida, Gainesville, Florida 32611, and a Research Associate of the Florida State Collection of Arthropods. Manuscript accepted March 27, 1975.

INTRODUCTION

For many years I have been accumulating records of southeastern mayflies, many of which have never been published. Because of the increasing interest that has been generated in these insects in recent years and their relationship to water quality studies, I feel that it is now appropriate to bring these data together for the use of aquatic biologists of the eight southeastern states included in this paper.

During the years 1953-1961, I received support from the Public Health Service (Grant No. RG4058) to make a detailed study of mayflies of the southeast. Because of distances involved and time limitations, I confined my work to the following states: Alabama, Florida, Georgia, Louisiana (eastern half), Mississippi, North Carolina, South Carolina, and Tennessee. Admittedly the delimitation was arbitrary, for certainly other states or parts of them should have been included. Hopefully this publication will stimulate scientists working in Virginia, Kentucky, Arkansas, Texas and other contiguous states, usually considered as southeastern, to augment these records.

The temptation to include systematic and ecological notes in this paper is great but time and space do not allow such broadening of the subject. Some of my later papers will be concerned with these matters. Space limitations prevent listing of specific localities but the county and month of collection are given.

ACKNOWLEDGMENTS AND EXPLANATIONS

Unless otherwise specified, all collections were made by me, my assistants, especially Dr. C. D. Hynes, or friends, and all specimens and records are deposited in the Florida State Collection of Arthropods of the Division of Plant Industry. I am indebted to the Highlands Biological Station, North Carolina, for its support of my studies over many years.

For the sake of completeness, I have included all published records available to me. In the late 1950's I was given the opportunity to study the mayfly collections of the Illinois Natural History Survey, the Academy of Natural Sciences of Philadelphia, the Fattig Collection of Emory University, and the Clemson College Entomological Collection. At the time of my visits to these institutions I was authorized to include their southeastern records in my publications. Each such record is appropriately recognized by a superscript as follows: 1. Illinois Natural History Survey; 2. Academy of Natural Sciences of Philadelphia; 3. Fattig Collection; 4. Clemson College.

State records published prior to 1935 are not listed unless the book, "The Biology of Mayflies" by Needham, Traver, and Hsu, failed to include specific references to them. To avoid lengthy citations in this section, generally only the initials of the author or authors and the date of publication are given. In the list of references at the end of this paper the symbols used are given with the complete citation.

To allow the reader to make some estimate of time of year when adults may be on the wing, I have designated the stage collected, using the following symbols: N = nymph, A = adult.

PHYSIOGRAPHIC PROVINCES AND ASSIGNED COUNTIES

I consider it desirable to relate patterns of distribution in terms of the physiographic regions from which the records come. To allow easy placement

of species records in physiographic provinces, I have assigned counties of each state as nearly as possible using the criteria generally recognized for distinguishing them. The provinces, shown in figure 1, are: (1) *Coastal Plain* (CP)—altitudes below 500 feet with more than half the plain being below 100 feet in elevation. (2) *Piedmont* (P)—altitudes range from 500 feet at the Fall Line to about 1000 feet at the base of the mountains to the west. (3) *Blue Ridge* (BR)—narrow, varying from 5 to 50 miles in width. Easternmost ridge of the Appalachian Highlands and rising 1000-5000 feet above the Piedmont. (4) *Valley and Ridge* (VR)—much folded mountains with thrust faulting in the southern part. (5) *Appalachian Plateaus* (AP)—almost equal in area to the Piedmont, Blue Ridge, and Valley and Ridge provinces combined. An elevated tract of nearly horizontal or gently folded strata with altitudes from 1000 feet along the western edge to about 3000 feet to the east. (6) *Interior Low Plateaus* (ILP)—part of a broad anticline.

COASTAL PLAIN

ALABAMA: Baldwin, Barbour, Bullock, Butler, Choctaw, Clarke, Coffee, Conecuh, Covington, Crenshaw, Dale, Dallas, Escambia, Geneva, Greene, Hale, Henry, Houston, Lamar, Lowndes, Macon, Marengo, Mobile, Monroe, Montgomery, Perry, Pickins, Pike, Russell, Sumter, Washington, Wilcox.

FLORIDA: All counties

GEORGIA: Appling, Atkinson, Bacon, Baker, Ben Hill, Berrien, Bibb, Bleckley, Brantley, Brooks, Bryan, Bulloch, Burke, Calhoun, Camden, Candler, Charlton, Chatham, Chattahoochee, Clay, Clinch, Coffee, Colquitt, Cook, Crawford, Crisp, Decatur, Dodge, Dooly, Dougherty, Early, Echols, Effingham, Emanuel, Evans, Glynn, Grady, Harris, Houston, Irwin, Jeff Davis, Jefferson, Jenkins, Johnson, Lanier, Laurens, Lee, Liberty, Long, Lowndes, McIntosh, Macon, Marion, Miller, Mitchell, Montgomery, Muscogee, Peach, Pierce, Pulaski, Quitman, Randolph, Richmond, Schley, Screven, Seminole, Stewart, Sumter, Talbot, Tattnall, Taylor, Telfair, Terrell, Thomas, Tift, Toombs, Treutlen, Turner, Twiggs, Ware, Washington, Wayne, Webster, Wheeler, Wilcox, Wilkinson, Worth.

LOUISIANA: All counties.

MISSISSIPPI: All counties.

NORTH CAROLINA: Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Edgecombe, Gates, Greene, Halifax, Harnett, Hertford, Hoke, Hyde, Johnston, Jones, Lenoir, Martin, Nash, New Hanover, Northampton, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Richmond, Robeson, Sampson, Scotland, Tyrrell, Washington, Wayne, Wilson.

SOUTH CAROLINA: Aiken, Allendale, Bamberg, Barnwell, Beaufort, Berkeley, Calhoun, Charleston, Clarendon, Colleton, Darlington, Dillon, Dorchester, Florence, Georgetown, Hampton, Horry, Jasper, Lee, Lexington, Marion, Marlboro, Orangeburg, Richland, Sumter, Williamsburg.

TENNESSEE: Benton, Carroll, Chester, Crockett, Decatur, Dyer, Fayette, Gibson, Hardeman, Hardin, Haywood, Henderson, Henry, Lake, Lauderdale, McNairy, Madison, Obion, Shelby, Tipton, Weakley.

PIEDMONT PROVINCE

ALABAMA: Autauga, Chambers, Chilton, Clay, Elmore, Lee, Randolph, Tallapoosa.

GEORGIA: Baldwin, Barrow, Butts, Carroll, Cherokee, Clark, Clayton, Cobb, Columbia, Coweta, DeKalb, Douglas, Elbert, Fayette, Franklin, Fulton, Glascock, Greene, Gwinnett, Hall, Hancock, Haralson, Hart, Heard, Henry, Jackson, Jasper, Jones, Lamar, Lincoln, McDuffie, Madison,

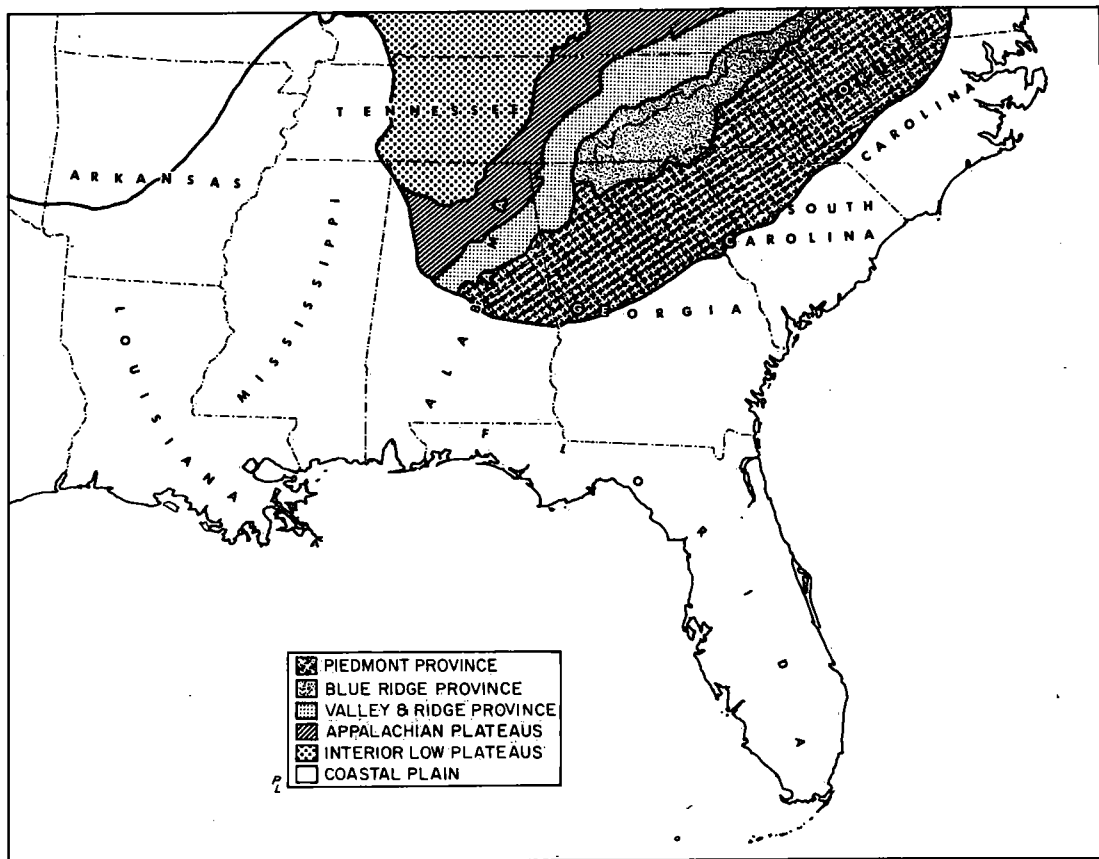

Figure 1.—Physiographic provinces of the southeastern United States.

Meriwether, Monroe, Morgan, Newton, Oconee, Oglethorpe, Paulding, Pike, Putnam, Rockdale, Spaulding, Taliaferro, Troup, Upson, Walton, Warren, Wilkes.

NORTH CAROLINA: Alamance, Anson, Cabarrus, Caswell, Chatham, Cleveland, Davidson, David, Durham, Forsyth, Franklin, Granville, Guilford, Iredell, Lee, Mecklenburg, Montgomery, Moore, Orange, Person, Randolph, Rockingham, Rowan, Stanly, Stokes, Surry, Union, Vance, Wake, Warren, Yadkin.

SOUTH CAROLINA: Abbeville, Aiken, Anderson, Cherokee, Chester, Chesterfield, Edgefield, Fairfield, Greenville, Greenwood, Kershaw, Lancaster, Laurens, Lexington, McCormick, Newberry, Richland, Saluda, Spartanburg, Union, York.

BLUE RIDGE PROVINCE

GEORGIA: Banks, Habersham, Lumpkin, Rabun, Stephens, Towns, Union, White.

NORTH CAROLINA: Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Catawba, Cherokee, Clay, Cleveland, Gaston, Graham, Haywood, Henderson, Jackson, Lincoln, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Surry, Swain, Transylvania, Watauga, Wilkes, Yancey.

SOUTH CAROLINA: Greenville, Oconee, Pickens

TENNESSEE: Blount, Carter, Cocke, Greene, Johnson, Monroe, Polk, Rhea, Sevier, Sullivan, Unicoi, Washington.

VALLEY AND RIDGE PROVINCE

ALABAMA: Bibb, Calhoun, Cleburne, Coosa, Saint Clair, Shelby, Talladega.

GEORGIA: Bartow, Catoosa, Chattooga, Dawson, Fannin, Floyd, Forsyth, Gilmer, Gordon, Murray, Pickins, Polk, Walker, Whitfield.

TENNESSEE: Bradley, Claiborne, Grainger, Hamblen, Hamilton, Hancock, Hawkins, Jefferson, Knox, Loudon, McMinn, Meigs, Rhea, Roane, Union.

APPALACHIAN PLATEAUS

ALABAMA: Blount, Cherokee, Cullman, DeKalb, Etowah, Fayette, Franklin, Jackson, Jefferson, Marion, Marshall, Morgan, Tuscaloosa, Walker, Winston.

GEORGIA: Dade

TENNESSEE: Anderson, Bledsoe, Campbell, Coffee, Cumberland, DeKalb, Fentress, Franklin, Grundy, Marion, Moore, Morgan, Overton, Pickett, Putnam, Scott, Sequatchie, Van Buren, Warren, White.

INTERIOR LOW PLATEAUS

ALABAMA: Colbert, Lauderdale, Lawrence, Limestone, Madison

TENNESSEE: Bedford, Cannon, Cheatham, Clay, Davidson, DeKalb, Dickson, Giles, Hickman, Houston, Humphreys, Jackson, Lawrence, Lewis, Lincoln, Macon, Marshall, Maury, Montgomery, Perry, Robertson, Rutherford, Smith, Stewart, Sumner, Trousdale, Wayne, Williamson, Wilson.

DISCUSSION

The geographic distribution of mayflies is a reflection of ecologically adaptive features developed by the nymphs and are the ones most severely limiting the spread of the species. The southeastern mayfly fauna is a large one with more than 250 species collected in the states included in this study.

The greatest variety occurs in the regions with the most varied aquatic habitats, particularly those with a wide range of stream types.

The southeastern United States is well-endowed with waterways and these have served as the pathways for the spread of species into all suitable stream systems. The bulk of the species are inhabitants of flowing waters in the immature stages and the most diverse habitats are located in the uplands.

Table 1 summarizes the distributional patterns of the various genera based on their presumed area of origin. Following the concepts of Dr. George F. Edmunds *et al.* (1976) with regard to Ephemeropteran origins, mid-austral genera are derived from South America or South American ancestors and extend through Central America and Mexico into the southern part of the United States. Some of these mid-austral genera have frequently moved into the central United States and central Canada via major river systems. The upper austral genera are clearly of southern origin but have a few species that extend their ranges northward into Canada. The boreal genera are Holarctic or Nearctic, the latter being closely related to Holarctic forms. The mid-boreal genera are generally distributed southwards in the United States and their immatures are adapted to living in cool waters. The lower boreal genera range southwards into Mexico and sometimes into South America.

The austral element in the southeast appears to have been derived by movement northwards from Mexico and through the warm-water streams of the southern Coastal Plain. Boreal elements left in the warm waters of the southern Coastal Plain are probably relicts of Pleistocene glaciation. The few austral species in the genera *Callibaetis*, *Paracloeodes*, *Homoeoneuria*, *Lep-tohyphes*, *Tricorythodes*, *Hexagenia*, *Pentagenia*, and *Tortopus* moved into the United States via Mexico and spread widely. Of the eight, *Paracloeodes* and *Homoeoneuria* seem to be the most highly restricted. None of the genera, other than *Callibaetis* and *Hexagenia*, have succeeded in diversifying extensively as they moved northwards and they are represented by only one or a few northern species. There seems to have been no movement from the islands of the Antilles into the southeastern United States, likely because of the lack of suitable habitats for the immatures in Florida, the most probable land mass to be colonized from the Greater Antilles, other than Central America or Mexico.

Table 2 lists the genera associated with each of the southeastern physiographic provinces. The greatest number, by far, occurs in all six divisions. Most of those of limited distribution have an austral origin. The Blue Ridge province with its multitude of fast-flowing, cool streams has the largest number of species, while the slow-flowing waters of that part of the Interior Low Plateaus studied has the fewest.

TABLE 1.—GEOGRAPHIC DISTRIBUTION OF THE MAYFLIES OF THE SOUTHEASTERN UNITED STATES.

Mid-Austral	Upper Austral	Lower Boreal	Mid-Boreal	Cosmopolitan

Isonychia thalia Traver

Physiographic provinces: P, BR.

Previously published state records: N. C., NTH, 1935, H, 1941

Additional records: GEORGIA, Rabun Co., July (A)³; NORTH CAROLINA, Rockingham Co., July (N,A). South Carolina, Oconee Co., July (A).

Isonychia tuscalanensis Berner

Physiographic provinces: BR.

Previously published state records: Tenn., WB., 1949.

Additional records: none.

FAMILY METRETOPODIDAE
SUBFAMILY METRETOPODINAE
GENUS *Siphloplecton* CLEMENS

Siphloplecton basale (Walker)

Physiographic provinces: CP

Previously published state records: N.C., NTH, 1935

Additional records: SOUTH CAROLINA, Barnwell Co., April (A)⁴

Siphloplecton signatum Traver

Physiographic provinces: BR

Previously published state records: N. C., NTH, 1935

Additional records: GEORGIA, Rabun Co., April (A)³

Siphloplecton species

Physiographic provinces: CP

Additional records: FLORIDA, Okaloosa Co., May (A). GEORGIA, Lowndes Co., March (N,A)

Siphloplecton speciosum Traver

Physiographic provinces: CP, P.

Previously published state records: Fla., Ber., 1950 and 1958, PJ, 1973, Sch, 1967; Ga., NTH, 1935.

Additional records: ALABAMA, Baldwin Co., December (N). FLORIDA, Escambia Co., January (N); Gadsden Co., April (A). GEORGIA, Bibb Co., April (A)³; Fayette Co., March (A)¹; Lowndes Co., March (N,A).

FAMILY BAETIDAE
SUBFAMILY BAETINAE
GENUS *Baetis* LEACH

Baetis amplus (Traver)

Physiographic provinces: CP, P, BR, VR, AP.

Previously published state records: N. C., Trav., 1932 and 1937.

Additional records: ALABAMA, Bibb Co., June (N). GEORGIA, Dougherty Co., September (N)²; Lumpkin Co., August (N); Rabun Co., May (N). MISSISSIPPI, Lauderdale Co., June (N). NORTH CAROLINA, Clay Co., April (N). TENNESSEE, Cumberland Co., April (N,A); Marion Co., April (N).

Baetis australis Traver

Physiographic provinces: CP, P, AP.

Previously published state records: Ala., Ber., 1958; Fla., Ber., 1950 and 1958, PJ, 1973, Sch, 1967; Ga., NTH, 1935, Ber., 1958; La., Bick, 1953; N. C., Trav., 1932.

Additional records: ALABAMA, Baldwin Co., June (N); Blount Co., June (N); Escambia Co., April (N); Houston Co., February (N); Mobile Co., June (N). FLORIDA, Alachua Co., December (A); Columbia Co., November (N); Gulf Co., April (A); Hamilton Co., February (N); Levy Co., November (N); Madison Co., March (N); Walton Co., April (N), April (A). GEORGIA, Early Co., February (N); Peach Co., April (N). LOUISIANA, Tangipahoa Par., June (N). MISSISSIPPI, Stone Co., August (N). NORTH CAROLINA, Rockingham Co., July (N). SOUTH CAROLINA, Aiken Co., May (A)², July (A)².

Baetis cingulatus McDunnough

Physiographic provinces: BR.

Previously published state records: N. C., Trav., 1937.

Additional records: NORTH CAROLINA, Jackson Co., August (A); Macon Co., August, September (A); Swain Co., June (A).

Baetis ephippiatus Traver

Physiographic provinces: CP, P, VR, AP.

Previously published state records: Fla., Ber., 1950 and 1958, PJ, 1973, Sch, 1967; Ga., NTH, 1935, Ber., 1958.

Additional records: ALABAMA, Baldwin Co., June (N); Coosa Co., June (N); Escambia Co., June (N); Macon Co., June (N); Mobile Co., June (N,A); Perry Co., June (N); Walker Co., June (N,A); Washington Co., May (N,A), August (N); Winston Co., August (N). FLORIDA, Bay Co., April (N); Escambia Co., October (N); Santa Rosa Co., August (N). GEORGIA, Baker Co., May (N); Floyd Co., June (A)³, August (A)³; Muscogee Co., June, July (A). LOUISIANA, Tangipahoa Par., August (N). MISSISSIPPI, Amite Co., June (N); Calhoun Co., July (N); Clay Co., July (N); Copiah Co., August (N); Holmes Co., July (N); Lamar Co., May (N), August (N,A); Lawrence Co., August (N); Marion Co., May (A), August (N); Monroe Co., July (N); Pike Co., June (A), August (N); Smith Co., August (N); Sunflower Co., July (N). SOUTH CAROLINA, Aiken Co., July (N); Darlington Co., July (A).

Baetis flavistriga McDunnough

Physiographic provinces: BR.

Previously published state records: Tenn., WB, 1949.

Additional records: NORTH CAROLINA, Macon Co., August (A). TENNESSEE, Greene Co., May (A); Sevier Co., July (A).

Baetis frondalis McDunnough

Physiographic provinces: BR.

Previously published state records: Tenn., WB, 1949.

Additional records: Greene Co., April, May, September (A).

Baetis hageni Eaton

Physiographic provinces: BR, VR, AP.

Previously published state records: Tenn., WB, 1949 (listed as *B. parvus*)

Additional records: TENNESSEE, Claiborne Co., August (N); Cumberland Co., July (A); Greene Co., September (A).

Baetis harti McDunnough

Physiographic provinces: CP.

Previously published state records: none.

Additional records: TENNESSEE, Benton Co., June (A).

Baetis incertans McDunnough

Physiographic provinces: BR, VR.

Previously published state records: N. C., Trav., 1937; Tenn., WB, 1949.

Additional records: TENNESSEE, Claiborne Co., July (N,A); Greene Co., March, April (A); Sevier Co., August (N), October (A); Unicoi Co., August (A).

Baetis intercalaris McDunnough

Physiographic provinces: CP, P, VR, AP, ILP.

Previously published records: Ala., Ber., 1958; Fla., Ber., 1950, 1958, PJ, 1973, Sch, 1967; Ga., Ber., 1958.

Additional records: ALABAMA, Bibb Co., June (N,A); Blount Co., June (A); Chilton Co., June (N); Coosa Co., June (N); Covington Co., July (N); Dale Co., June (N); Dallas Co., April (A), June (N); Elmore Co., June (N,A); Houston Co., June (N); Lauderdale Co., June (A); Macon Co., April, June (N); Shelby Co., June (N); Tuscaloosa Co., June (N). FLORIDA, Escambia Co., October (N,A); Gadsden Co., April (N); Liberty Co., March, June (N). GEORGIA, Baker Co., November (N); Bibb Co., July (N); Cherokee Co., August (A); Decatur Co., March (N); Grady Co., November (N); Muscogee Co., June, July (A). LOUISIANA, Tangipahoa Co., August (N). MISSISSIPPI, Jasper Co., April (N); Lafayette Co., July (N); Lauderdale Co., July (N,A); Perry Co., August (N). NORTH CAROLINA, Macon Co., August (A). TENNESSEE, Campbell Co., August (A); Davidson Co., October (N).

Baetis levitans McDunnough

Physiographic provinces: BR.

Previously published state records: Tenn., WB, 1949.

Additional records: TENNESSEE, Greene Co., May, September (A).

Baetis pallidulus McDunnough

Physiographic provinces: BR.

Previously published state records: none.

Additional records: TENNESSEE, Sevier Co., July (A).

Baetis propinquus (Walsh)

Physiographic provinces: CP, VR.

Previously published state records: Ala., Trav., 1937; Fla., Ber., 1950 and 1958, Sch, 1967.

Additional records: ALABAMA, Dallas Co., June (A). FLORIDA, Gadsden Co., June (A). MISSISSIPPI, Leflore Co., July (A); Lowndes Co., June (A). SOUTH CAROLINA, Darlington Co., July (A). TENNESSEE, Hamilton Co., August (A).

Baetis pygmaeus (Hagen) group

Physiographic provinces: BR, VR, AP.

Previously published state records: none

Additional records: NORTH CAROLINA, Jackson Co., August (N); Macon Co., August (N); Swain Co., April (N). TENNESSEE, Claiborne Co., August (N); Greene Co., March, April (N); Morgan Co., July (N); Van Buren Co., July (N).

Baetis species

Physiographic provinces: CP, P, BR, VR, AP, ILP.

Additional records: ALABAMA, DeKalb Co., April, May, July (N); Tuscaloosa Co., April-July (N). GEORGIA, Baker Co., October (N); Burke Co., June (N); Carroll Co., March (N); Cherokee Co., June (N,A), July, October (N), August (N,A); Coweta Co., June (A)²; Dawson Co., June (N); Decatur Co., March, August, October (N), June (A); Floyd Co., June (N); Forsyth Co., June (N); Habersham Co., April (A)¹; Hart Co., November (N); Lumpkin Co., April, August (N); Monroe Co., July (N); Muscogee Co., June (N); Peach Co., April (N); Pickens Co., June (N); Rabun Co., April, July, August (N); Toombs Co., August (N); Walker Co., April (N); White Co., August (A); Wilkes Co., (N). FAMILY OLIGONEURIIDAE
SUBFAMILY OLIGONEURIINAE
GENUS *Homoeoneuria* EATON

Homoeoneuria dolani Edmunds, Berner, and Traver

Physiographic provinces: CP.

Previously published state records: Fla., PJ, 1973; Ga., EBT, 1958; S. C., EBT, 1958.

Additional records: None.

Homoeoneuria species

Physiographic provinces: CP, P.

Previously published state records: Fla., EBT, 1958; Miss., EBT, 1958; S. C., EBT, 1958.

Additional records: FLORIDA, Santa Rosa Co., August (N).

FAMILY HEPTAGENIIDAE
SUBFAMILY PSEUDIRONINAE
GENUS *Pseudiron* McDUNNOUGH

Pseudiron centralis McDunnough

Physiographic provinces: CP

Previously published state records: None

Additional records: ALABAMA, Dallas Co., April (A). FLORIDA, Walton Co., April (A). TENNESSEE, Shelby Co., June (A).

Pseudiron meridionalis Traver

Physiographic provinces: CP, P.

Previously published state records: Fla., PJ, 1973; Ga., NTH, 1935.

Additional records: None

Pseudiron species

Physiographic provinces: CP, BR

Additional records: FLORIDA, Santa Rosa Co., March (N). MISSISSIPPI, Leflore Co., June (A). SOUTH CAROLINA, Allendale Co., May (N)*. TENNESSEE, Unicoi Co., May (A).

SUBFAMILY HEPTAGENIINAE
GENUS *Cinygmula* McDUNNOUGH

Cinygmula species

Physiographic provinces: BR.

Additional records: NORTH CAROLINA, Clay Co., April (N); Macon Co., May (N)¹; Swain Co., May (N)¹, April and May (N).

Cinygmula subaequalis (Banks)

Physiographic provinces: BR, AP, ILP.

Previously published state records: N. C., Banks, 1914, Trav., 1937; Tenn., WB, 1949 (Last two as *C. atlantica*).

Additional records: GEORGIA, Rabun Co., July (A)². NORTH CAROLINA, Clay Co., April (N); McDowell Co., April (N); Swain Co., June (A). TENNESSEE, Cocke Co., April (A); Dickson Co., June (N); Houston Co., June (N); Marion Co., April (N); Moore Co., April (N).

GENUS *Epeorus* EATON

Epeorus dispar (Traver)

Physiographic provinces: BR.

Previously published state records: N. C., Trav., 1933 and 1937, H, 1941; S. C., NTH, 1935.

Additional records: NORTH CAROLINA, Jackson Co., August (A,N); Macon Co., August (A). SOUTH CAROLINA, Greenville Co., July (A)⁴, June (A)⁴. TENNESSEE, Unicoi Co., August, October (A).

Epeorus pleuralis (Banks)

Physiographic provinces: BR

Previously published state records: N. C., Trav., 1937 (as *E. confusus*)

Additional records: GEORGIA, Rabun Co., May (A)³. TENNESSEE, Sevier Co., July (A,N), April, May (A)³; Unicoi Co., June (A).

Epeorus rubidus (Traver)

Physiographic provinces: BR, VR.

Previously published state records: N. C., Trav., 1933 and 1937 H, 1941; Tenn., WB, 1949.

Additional records: GEORGIA, Lumpkin Co., August (A)¹. NORTH CAROLINA, Jackson Co., June (N,A). SOUTH CAROLINA, Pickens Co., May (A)⁴. TENNESSEE, Cocke Co., June (A); Greene Co., May (N); Hawkins Co., July (N).

Epeorus species

Physiographic provinces: CP, P, BR, VR.

Additional records: ALABAMA, Calhoun Co., July (N). GEORGIA, Burke Co., June (N); Carroll Co., March (N); Cherokee Co., June (N); Dawson Co., June (N,A); Fannin Co., May (N)³; Habersham Co., April (A)³; Lumpkin Co., August (N), April (N); Pickens Co., June (N); Rabun Co., May (N)³, April (N); August (N), White Co., June, July (N)³. Additional records: GEORGIA, May (A)³. NORTH CAROLINA, Buncombe Co., May (N); McDowell Co., April (N); Transylvania Co., May (N).

Ephemerella serrata Morgan

Physiographic provinces: BR

Previously published state records: N. C., NTH, 1935, AE, 1963.

Additional records: NORTH CAROLINA, Macon Co., July (A), Swain Co., July (N,A), August (A).

Ephemerella serratoides McDunnough

Physiographic provinces: CP, P, BR, VR, AP, ILP

Previously published state records: N. C., NTH, 1935, AE, 1963; Tenn., AE, 1963.

Additional records: ALABAMA, Coosa Co., June (N); Shelby Co., June (N). GEORGIA, Baker Co., May (N); Cherokee Co., June, July, August (N); Lumpkin Co., July, August (N); Pickens Co., June (N). NORTH CAROLINA, Graham Co., August (N); Macon Co., August (N); Polk Co., July (N); Randolph Co., July (N); Swain Co., June, July (A), August (N); Transylvania Co., June (N); Union Co., July (N). SOUTH CAROLINA, Greenville Co., August (N). TENNESSEE, Franklin Co., April (N); Robertson Co., June (N); Sevier Co., July (N); Unicoi Co., August (N).

Ephemerella simplex McDunnough

Physiographic provinces: CP, P, BR, AP

Previously published state records: Fla., Ber., 1958; Ga.-S. C., PCR, 1967; N. C., NTH, 1935, Burks, 1953, AE, 1962.

Additional records: ALABAMA, Macon Co., April (N); Tuscaloosa Co., April (N), May (A,N). FLORIDA, Liberty Co., March (N). GEORGIA, Macon Co., April (N). NORTH CAROLINA, Jackson Co., June (N); Macon Co., June, August (N); Swain Co., May (N)¹, June (N); Wake Co., May (N). SOUTH CAROLINA, Edgefield Co., April (A,N); Fairfield Co., April (N); Laurens Co., April (N); Lexington Co., April (N).

Ephemerella sordida McDunnough

Physiographic provinces: CP, BR, AP

Previously published state records: N. C., AE, 1963

Additional records: ALABAMA, Perry Co., May (N); Walker Co., June (N). NORTH CAROLINA, Macon Co., July (A). TENNESSEE, Cumberland Co., July (N).

Ephemerella species

Physiographic provinces: CP, BR, AP

Previously published state records: N. C., AE, 1963

Additional records: FLORIDA, Liberty Co., March (N). GEORGIA, Baker Co., March (A); Bibb Co., April (N)³; Burke Co., June (N); Carroll Co., March (N); Cherokee Co., June (N,A), August (A); Dawson Co., June (N); Fulton Co., March, April (A)³; Gilmer Co., June (A)³; Habersham Co., August (A)¹; Lumpkin Co., August (N); Pickens Co., June (N); Rabun Co., April (N), July (N), August (N); Richmond Co., April (A); Sumter Co., August (N); White Co., July (A). NORTH CAROLINA, Clay Co., April (N); Jackson Co., August (A); Macon Co., June (N,A), July (N), August (A); Swain Co., May, June (N)¹, April, December (N); Transylvania Co., July (N); Wake Co., May (N); Yancey Co., May (N). SOUTH CAROLINA, Aiken Co., May (A); Oconee Co., August (N); Orangeburg Co., April (A), October (N); Pickens Co., April (N)¹. TENNESSEE, Fentress Co., May (A); Greene Co., May (A); Sevier Co., May (N)¹, April, June, December (N).

Ephemerella spiculosa Berner and Allen

Physiographic provinces: BR

Previously published state records: N. C., BA, 1961, AE, 1963; Tenn., BA, 1961, AE, 1963.

Additional records: NORTH CAROLINA, Macon Co., July (N). TENNESSEE, Greene Co., August (N).

Ephemerella subvaria McDunnough

Physiographic provinces: BR

Previously published state records: None

Additional records: NORTH CAROLINA, Swain Co., April (N).

Ephemerella temporalis McDunnough

Physiographic provinces: BR

Previously published state records: Ga., NTH, 1935; N. C., NTH, 1935, Trav., 1937, AE, 1963; S. C., AE, 1963.

Additional records: GEORGIA, Habersham Co., July (A)³, NORTH CAROLINA, Macon Co., July (N).

Ephemerella trilineata Berner

Physiographic provinces: CP, VR, AP

Previously published state records: Fla., Ber., 1950 and 1958, AE, 1963, PJ, 1973, Ga., Sch, 1967; Ber., 1958.

Additional records: ALABAMA, Escambia Co., April, June (N); Mobile Co., June (N), Tuscaloosa Co., May, June (N). FLORIDA, Alachua Co., January (N), April (A); Baker Co., February (N); Bay Co., April (N); Clay Co., January (N); Columbia Co., November (N); Escambia Co., March, April (N); Gadsden Co., March, April (N,A); Gulf Co., April (N,A); Jackson Co., April (A); Lake Co., December (N); Liberty Co., March (A); Madison Co., January (N); Manatee Co., February (N); Okaloosa Co., April (A), March, April (N), May (A); Walton Co., April (A), April (N). GEORGIA, Berrian Co., March (N); Burke Co., May (A)², October, November, December (N); Charlton Co., February (N); Chattahoochee Co., April (N); Decatur Co., April (N); Houston Co., April (A); Lowndes Co., February (A), March (A,N); Whitfield Co., May (A)³. LOUISIANA, Lamar Co., May (N); Tangipohoa Co., June (N); Washington Co., August (N). MISSISSIPPI, Lamar Co., May (N). SOUTH CAROLINA, Orangeburg Co., April (A).

Ephemerella tuberculata Morgan

Physiographic provinces: BR

Previously published state records: N. C., NTH, 1935, Trav., 1937 (as *E. cherokee*), Burks, 1953, AE, 1962; Tenn., Burks, 1953, AE, 1962.

Additional records: GEORGIA, Cherokee Co., June (N); Lumpkin Co., April (N); Union Co., June (A)³. NORTH CAROLINA, Jackson Co., June (N); Macon Co., July (N); Swain Co., August (N); Transylvania Co., July (N). TENNESSEE, Sevier Co., August (N).

Ephemerella walkeri Eaton

Physiographic provinces: BR

Previously published state records: None

Additional records: NORTH CAROLINA, Buncombe Co., April (N)¹ (identified as *E. simplex* by Burks)

Ephemerella wayah Traver

Physiographic provinces: BR

Previously published state records: N. C., NTH, 1935, TH, 1941, AE, 1962

Additional records: GEORGIA, Rabun Co., July (A)³; NORTH CAROLINA, Macon Co., June (N); Swain Co., June, July (N); Transylvania Co., June (N); Yancey Co., July (N). TENNESSEE, Blount Co., June (N).

FAMILY TRICORYTHIDAE
SUBFAMILY LEPTOHYPHINAE
GENUS *Leptohyphes* EATON

Leptohyphes dolani Allen

Physiographic provinces: CP, P

Previously published state records: Ga.-S. C. state line, A, 1967.

Additional records: GEORGIA, Burke Co., August (N), October (N)²; Effingham Co., July (N). SOUTH CAROLINA, Aiken Co., July, September (N)²; Newberry Co., August (N).

Leptohyphes robacki Allen

Physiographic provinces: CP

Previously published state records: Ga.-S. C. state line, A, 1967.

Additional records: None

GENUS *Tricorythodes* ULMER*Tricorythodes albilineatus* Berner

Physiographic provinces: CP, VR

Previously published state records: Ala., Ber., 1958; Fla., Ber., 1950 and 1958, PJ, 1973, Sch, 1967; Ga., Ber., 1958.

Additional records: ALABAMA, Bibb Co., Escambia Co., June (N); Henry Co., June (N). FLORIDA, Alachua Co., October (N); Escambia Co., October (A); Hamilton Co., July (A); Levy Co., November (N); Liberty Co., June (A); Santa Rosa Co., August (N). GEORGIA, Burke Co., July-September (N); Decatur Co., June (A); Effingham Co., July (N); Monroe Co., July (N,A); Muscogee Co., June (N).

Tricorythodes allectus (Needham)

Physiographic provinces: BR

Previously published state records: None

Additional records: NORTH CAROLINA, Macon Co., August (A).

Tricorythodes atratus (McDunnough)

Physiographic provinces: BR

Previously published state records: None

Additional records: TENNESSEE, Sevier Co., August (A).

Tricorythodes species

Physiographic provinces: CP, P, BR, VR, AP, ILP

Additional records: ALABAMA, Bibb Co., May, June (N); Chilton Co., June (N); Coosa Co., June (N); Covington Co., July (N); Dallas Co., June (N); DeKalb Co., July (N); Elmore Co., June (N); Lauderdale Co., June (N); Macon Co., June (N); Marion Co., June (N); Perry Co., May, June (N); Randolph Co., June (N); Walker Co., June (N). TENNESSEE, Dickson Co., June (N,A); Giles Co., July (N); Greene Co., August (N); Houston Co., July (N); Lincoln Co., July (N); Moore Co., July (N); Robertson Co., June, July, August (N); Rutherford Co., July (N); Sumner Co., June (N); Warren Co., June (N).

Trichorythodes stygiatus McDunnough

Physiographic provinces: BR

Previously published state records: None

Additional records: NORTH CAROLINA, Macon Co., August (A).

Tricorythodes texanus Traver

Physiographic provinces: CP

Previously published state records: None

Additional records: MISSISSIPPI, Marion Co., August (N,A).

SUPERFAMILY EPHEMEROIDEA
FAMILY BEHNINGIIDAE
SUBFAMILY BEHNINGIINAE
GENUS *Dolania* EDMUNDS AND TRAVER

Dolania americana Edmunds and Traver

Physiographic provinces: CP

Previously published state records: Fla., PJ, 1973, Sch, 1967; S. C., ET, 1959, PCR, 1967.

Additional records: FLORIDA, Okaloosa Co., May (N,A), August (N); Santa Rosa Co., February August (N). SOUTH CAROLINA, Aiken Co., (N)²; Allendale Co., no date (N)².

FAMILY POTAMANTHIDAE
SUBFAMILY POTAMANTHINAE
GENUS *Potamanthus* PICTET

Potamanthus distinctus Traver

Physiographic provinces: BR, VR

Previously published state records: Ga., McC., 1975; N. C., Trav., 1937; Tenn., McC., 1975.

Additional records: GEORGIA, Chatoga Co., June (A)¹; Fannin Co., June (A)²; White Co., July and August (A). NORTH CAROLINA, McDowell Co., April (N), Watauga Co., July (A). TENNESSEE, Sevier Co., July (A), August (N,A), August (A).

Potamanthus myops (Walsh)

Physiographic provinces: ILP

Previously published state records: Tenn., McC., 1975.

Additional records: TENNESSEE, Davidson Co., June (A)

Potamanthus neglectus Traver

Physiographic provinces: CP, ILP

Previously published state records: Miss., McC., 1975; Tenn., McC., 1975.

Additional records: None.

Potamanthus rufous Argo

Physiographic provinces: VR

Previously published state records: Tenn., McC., 1975.

Additional records: TENNESSEE, Hamilton Co., August (A).

Potamanthus species

Physiographic provinces: P, BR, VR, ILP

Additional records: GEORGIA, Catoosa Co., June (A)¹; Cherokee Co., June (N); Hall Co., July (A)²; Pickens Co., June (N). NORTH CAROLINA, Watauga Co., February (N). TENNESSEE, Rutherford Co., July (N); Unicoi Co., August (N).

Potamanthus verticis (Say)

Physiographic provinces: CP, ILP

Previously published state records: Miss., McC., 1975; Tenn., NTH, 1935.

Additional records: MISSISSIPPI, Lawrence Co., August (A); Lowndes Co., June (A); Pike Co., August (A). TENNESSEE, Cheatham Co., July (A); Davidson Co., June (A); Lincoln Co., July (A).

FAMILY EPHEMERIDAE
SUBFAMILY EPHEMERINAE
GENUS *Ephemera* LINNAEUS

Ephemera blanda Traver

Physiographic provinces: BR, VR

Previously published state records: Ga., NTH, 1935; N. C., NTH, 1935; S. C., NTH, 1935.

Additional records: GEORGIA, Dawson Co., June (N); Gilmer Co., July (A)¹, June (A)²; Habersham Co., July (A)¹; Lumpkin Co., August (A); Rabun Co., June (A)²; Union Co., July (A)²; White Co., July (A)¹, July, August (A). NORTH CAROLINA, Macon Co., July (A), June (N,A); McDowell Co., April (N); Swain Co., August (N). SOUTH CAROLINA, Greenville Co., May, June (A)⁴.

Ephemera guttūlata Pictet

Physiographic provinces: BR, AP

Previously published state records: Ga., McC., 1975; N. C., NTH, 1935, Trav., 1937; S. C., McC., 1975; Tenn., Kenn., 1926, WB, 1949.

Additional records: GEORGIA, Lumpkin Co., May (A)². NORTH CAROLINA, Swain Co., August (N). TENNESSEE, Cumberland Co., July (N); Greene Co., May (N,A); Morgan Co., July (N); Sevier Co., August (N); Unicoi Co., June (A), August (N).

Ephemera simulans Walker

Physiographic provinces: P

Previously published state records: Fla., Ber., 1950 (very doubtful record); S. C., McC., 1975.

Additional records: SOUTH CAROLINA, Fairfield Co., April (A).

Ephemera species

Physiographic provinces: CP, BR, VR, AP, ILP

Additional records: ALABAMA, Winston Co., August (N). GEORGIA, Fannin Co., June (N)²; Screven Co., July (N). NORTH CAROLINA, Buncombe Co., May (N); Macon Co., July (N); Polk Co., July (N); Transylvania Co., June (N); Watauga Co., February, July, August (N). SOUTH CAROLINA, Oconee Co., August (N). TENNESSEE, Lincoln Co., April (N); Marion Co., April (A)¹, April (A); Sevier Co., December (N).

Ephemera varia Eaton

Physiographic provinces: P, BR, AP, ILP

Previously published state records: Ga., McC., 1975; N. C., McC., 1975; Tenn., WB, 1949.

Additional records: GEORGIA, Rabun Co., July August (N). NORTH CAROLINA, Jackson Co., July (A), August (N,A); Macon Co., June-August (N), June, August (A); Randolph Co., July (N); Watauga Co., July (A), June (N). TENNESSEE, Cumberland Co., July (N); Dickson Co., July (N); Greene Co., May (N,A), June, July, September (A); Rutherford Co., July (N); Sevier Co., April (N); Unicoi Co., June (A); Wayne Co., July (N).

GENUS *Hexagenia* WALSH

Hexagenia atrocaudata McDunnough

Physiographic provinces: BR, VR

Previously published state records: Ga., NTH, 1935; N. C., NTH, 1935; S. C., PCR, 1967 (doubtful identification); Tenn., WB, 1949.

Additional records: GEORGIA, Bartow Co., August (A)²; Floyd Co., August (A)²; NORTH CAROLINA, Watauga Co., August (A). TENNESSEE, Unicoi Co., August (A).

Hexagenia bilineata (Say)

Physiographic provinces: CP, P, BR, VR, AP, ILP

Previously published state records: Ala., Trav., 1937, Spieth, 1941; Fla., Ber., 1950 and 1958, Sch., 1967; Ga., NTH, 1935, Spieth, 1941, Ber., 1958; La., Eaton, 1883, Spieth, 1941; Miss.,

NTH, 1935, Spieth, 1941, Ber., 1957; N. C., McC., 1975; S. C., PCR, 1967 (questionably), McC., 1975; Tenn., NTH, 1935, Spieth, 1941, WB, 1949.

Contributions to the BULLETIN OF THE FLORIDA STATE MUSEUM, BIOLOGICAL SCIENCES SERIES, may be in any field of biology. Manuscripts dealing with natural history of systematic problems involving the southeastern United States or the New World tropics are solicited especially. Manuscripts should be of medium length—circa 35 to 200 pages (10,500-16,000 words). Examination for suitability is made by an Editorial Board.

The BULLETIN is distributed worldwide through institutional subscriptions and exchanges. It is considered the responsibility of the author to distribute his paper to all interested individuals. To aid in this the author(s) receive(s) 50 copies free, and he may purchase additional separates at cost if ordered when page proof is returned. The author is also responsible for any charges incurred for alterations made by him on galley or page proofs. The Museum will send an invoice to the author for this amount upon completion of publication.

PREPARATION OF MANUSCRIPT

Contributors should consult recent numbers of the BULLETIN for preferred style and format. Highly recommended as a guide is the CBE Style Manual, 3rd Edition, 1972 (Washington, D.C., Amer. Inst. Biol. Sci.).

MSS must be submitted in duplicate (please no onionskin) and satisfy the following minimal requirements: They should be typewritten, double-spaced (*especially* tables, figure captions, and "Literature Cited"), on one side of numbered sheets of standard (8-1/2 × 11 in.) bond paper, with at least one-inch margins all around. Figure legends and tables should be typed on separate sheets. All illustrations are referred to as figures. They must comply with the following standards: Photographs should be sharp, with good contrast, and printed on glossy paper. Drawings should be made with dense black waterproof ink on quality paper or illustration board. All illustrations should have a cover sheet. All lettering will be medium weight, sans-serif type (e.g. Futura Medium, News Gothic) in cutout, dry transfer, or lettering guide letters. Make allowance so that after reduction no lowercase letter will be less than 1 mm high (2 mm is preferred) nor any capital letter greater than 5 mm high. The maximum size for illustrations is 8-5/8 × 14 in. (twice typepage size); illustrations should not be less than typepage width (4-5/16 in.). Designate the top of each illustration and identify on the back with soft pencil by author's name, MS title, and figure number.

All manuscripts not submitted in BULLETIN format will be returned to the author for retyping.

Manuscripts and all editorial matters should be addressed to:
