05 Jesús Rivas.jpg — Jesús Rivas, a Venezuelan biologist who studies anacondas in the Amazon floodplains, was a contributing scientist to the Amazon Voyage exhibit. Through his numerous studies of these non-venomous constrictors, Rivas has discovered female anacondas grow up to five times larger than males, reaching an average length of 12 feet and an average weight of 160 pounds. “Amazon Voyage: Vicious Fishes and Other Riches” is on display at the Florida Museum of Natural History Oct. 3 through Jan. 17, 2010.

06 Candiru Karaoke.jpg — A family enjoys learning about the catfish of the Amazon through songs and graphics. “Amazon Voyage: Vicious Fishes and Other Riches,” on display at the Florida Museum of Natural History Oct. 3 through Jan. 17, 2010, mixes scientific research, humor and extraordinary craftsmanship into an interactive exhibition for all ages.

07 Piranha.jpg — Visitors to “Amazon Voyage: Vicious Fishes and Other Riches” will find there’s more to piranhas than a great set of chops and a healthy appetite. The exhibit is on display at the Florida Museum of Natural History Oct. 3 through Jan. 17, 2010.

08 Floodplain Lake.jpg — Grab friends and family and wrestle with a life-size, soft, sculpted anaconda model like researchers in the Amazon. “Amazon Voyage: Vicious Fishes and Other Riches” is on display at the Florida Museum of Natural History Oct. 3 through Jan. 17, 2010.

09 Real Seven Perils.jpg — Through artwork by Ray Troll, a family explores the real dangers of the Amazon: the environmentally threatening practices of damming rivers, gold mining, cattle ranching, over-fishing, bio-piracy, poaching and logging. “Amazon Voyage: Vicious Fishes and Other Riches” is on display at the Florida Museum of Natural History Oct. 3 through Jan. 17, 2010.

10 Tetra Tank.jpg — Visitors to “Amazon Voyage: Vicious Fishes and Other Riches” can have a fish-eyed view of species from the Amazon that are commonly found in American homes through a dome-like opening under a real aquarium. The exhibit is on display at the Florida Museum of Natural History Oct. 3 through Jan. 17, 2010.

Illustrations 11 – 17 represent the seven perils of the Amazon rainforest. Ray Troll’s scientifically accurate images featured in the exhibit are touched with humor and tinged with the surreal. Artwork copyright Ray Troll.

Illustrations 18 – 24 are copyright Ray Troll.
